

## Table of Contents

### Functionalism and Formalism in Linguistic Theory

GEORGE AARON BROADWELL & TIMOTHY J. SMITH	1
<i>Form and function in Kaqchikel word order</i>	
EUIYON CHO	17
<i>Some fallacious arguments for the autonomy of syntax hypothesis and limits of Autonomous Functionalism</i>	
MIKE DUKES	29
<i>Null arguments in Polynesian: formal and functional constraints</i>	
WOUTER JANSEN	43
<i>Phonetic voice and phonological assimilation in the Germanic languages</i>	
JEFF MIELKE	59
<i>Perception in phonology: the case of Turkish [h] deletion</i>	
MARIANNE MITHUN	73
<i>Understanding and explaining applicatives</i>	
FREDERICK J. NEWMeyer	99
<i>Where is functional explanation?</i>	
STEFAN PLOCH	123
<i>Link Phonology: a functional explanation of non-monotonicity in phonology</i>	
DAVID STRINGER	139
<i>The syntax of paths and boundaries</i>	
PIUS TEN HACKEN	155
<i>Chomskyan versus formalist linguistics</i>	

### Languages of the Arctic

SHANLEY ALLEN, FRED GENESEE, SARAH FISH & MARTHA CRAGO	171
<i>Patterns of code mixing in English-Inuktitut bilinguals</i>	
ANNA BERGE	189
<i>The participial, emphasis, and speaker preference in West Greenlandic</i>	

JONATHAN DAVID BOBALJIK & SUSI WURMBRAND	205
<i>Seven prefix-suffix asymmetries in Itelmen</i>	
JOHN P. BOYLE	221
<i>The Aleut Effect: Competition at TP</i>	
WILLEM J. DE REUSE	239
<i>The Great Yupik Mood Swing, and its implications for the directionality of semantic change</i>	
MICHAEL FORTESCUE	249
<i>Productivity and linguistic layering in West Greenlandic and Aleut</i>	
JERROLD M. SADOCK	263
<i>How special are Eskimo-Aleut languages?</i>	
MIKAEL SVONNI AND MIKAEL VINKA	277
<i>North Sámi causatives as faire par constructions</i>	
MARY D. SWIFT	289
<i>The morphological encoding of degrees of temporal remoteness in Inuktitut</i>	
EDWARD J. VAJDA	305
<i>The origin of phonemic tone in Yeniseic</i>	
<b>The Autonomy of Morphology</b>	
MARK ARONOFF	323
<i>Autonomous morphology: the waste remains</i>	
JONATHAN DAVID BOBALJIK	339
<i>Rich agreement: On the morphological consequences of syntactic variation</i>	
CLAIRE BOWERN	353
<i>Unfamiliar solutions to familiar problems: How and why Bardi turns i-n-l-bala-ij-ngay into ilalijarrngay</i>	
BERNARD COMRIE	367
<i>How independent is Tsezic morphology?</i>	
GREVILLE G. CORBETT, MATTHEW BAERMAN & DUNSTAN BROWN	385
<i>Domains of syncretism: a demonstration of the autonomy of morphology</i>	

JOHN FRAMPTON	399
<i>The amn't gap, ineffability, and anomalous aren't: Against morphosyntactic competition</i>	
MARCIA HAAG	413
<i>Cherokee tone associations with overt morphology</i>	
MICHAEL HUGHES & FARRELL ACKERMAN	425
<i>Words and paradigms: Estonian nominal inflection</i>	
JAMES E. LAVINE	437
<i>On the site of morphology and crosslinguistic variation</i>	
FRANÇOIS NEMO	453
<i>Morpheme semantics and the autonomy of morphology: The stable semantics of (apparently) unstable constructions</i>	
JOCHEN TROMMER	469
<i>A hybrid account of affix order</i>
